EDUCATION

Professional Science Master's, University of Denver **September 2020 — June 2022**
Biomedical Sciences
Capstone: *Traumatic Brain Injury: Using research to develop recommendations for improved recovery*

Master of Arts, University of Denver **September 2017 — June 2019**
Sport and Performance Psychology
Capstone and Diversity Project: *Lessons learned in a master's program: Time spending, buy in, and consulting excellence*

Bachelor of Science, The Ohio State University **September 2009 — June 2012**
Double Major in Psychology and Criminology
Dean's List Autumn 2010, Winter 2011

LICENSES AND CERTIFICATIONS

Licensed Professional Counselor (LPC.0021445)

Certified Specialist in Psychometry

CLINICAL EXPERIENCE

Clinical Training Coordinator
Pediatric Psychology Services of Colorado **September 2024 — Current**
Primary Responsibilities: As the Clinical Training Coordinator at Pediatric Psychology Services of Colorado, I develop and manage clinical training programs for interns, fellows, and new clinicians, ensuring alignment with accreditation standards. I provide mentorship and am working towards requirements to become an LPC supervisor, thereby upholding quality clinical services and adherence to ethical practices. My responsibilities also include administering pediatric neuropsychological assessments and contributing to comprehensive clinical reporting. Additionally, I deliver evidence-based therapeutic interventions for parents of children with diverse neuropsychological conditions. I organize continuing education workshops and uphold rigorous quality assurance standards to enhance professional development and service delivery.

Psychometrist and Therapist
Pediatric Psychology Services of Colorado **January 2023 — September 2024**
Primary Responsibilities: Conducting neuropsychological and neurodevelopmental evaluations for children ages 18 and under. Specialist in neuropsychological evaluations for pediatric brain injury. Training interns to deliver assessments with validity and reliability. Tracking all

evaluations, reviewing reports for completeness, and coordinating the peer editing process. Providing therapy services to parents of children who were evaluated through this clinic.

**Pre-Licensure Therapist, Psychometrist, and Grant Writer
Unlimited Mind LLC**

October 2022– Current

Primary Responsibilities: Contracting with Creative Directions Counseling & Consulting (supervised by Kyra Logsdon, MSW, LCSW, RPT-S) and Next Breath Psychology (supervised by Jake Hanks, PhD). I offer individual, family, and group therapy sessions. I specialize in survivors of brain injury, chronic illness, and traumatic events. I offer an affirming practice for neurodiverse, LGBTQI+, and BIPOC individuals who live in a rural area. Conducting neuropsychological evaluations primarily for adults with Next Breath Psychology under Dr. Jake Hanks' supervision for complex presentations and neurocognitive diagnoses. Wrote and submitted two grant proposals for Hetty Pazos, PsyD. One was successfully funded for bilingual pediatric neurodevelopmental evaluations.

Interning MA Level Therapist

The Brain Injury Alliance of Colorado, Denver, CO

January 2021- June 2024

Primary Responsibilities: Served as the first interning therapist, saw individual clients who survived a brain injury and family members for therapy. Led the development of the self-identity model and application to therapy services for The Brain Injury Alliance of Colorado.

Mental Performance Consultant

Center for Performance Excellence

September 2018 — June 2019

Primary Responsibilities: Student consultant for the Adaptive Sport Foundation Youth Sled Hockey Team, Rapids Soccer Regional Coaches, the Aurora Fire Fighter Academy, a Rapids Youth Soccer Team, Northfield High School Coaches, and LIM 365 Adaptive Sports.

ADMINISTRATIVE EXPERIENCE

Founder & Coach at Unlimited Force Training, LLC, Denver, CO January 2018 – Jan 2023

Primary Responsibilities: Founded a personal coaching and training company focused on personalized physical, psychological, and spiritual health. Served over 60 individuals ranging from beginners taking control of their health to elite-level athletes aiming for the podium. Head coach for KIPP Denver Collegiate High School Cross Country (2019-2022) and Squid-LGBTQIA+ Swim Team (2018-2022).

RESEARCH EXPERIENCE

Research Assistant

Traumatic Brain Injury Lab, University of Denver, Denver, CO November 2018 — Current
PI: Kim Gorgens, PhD, ABPP

Primary Responsibilities: Project lead and mentor for new research assistants. This lab focuses on justice-involved individuals, domestic violence survivors, and athletes who experienced a brain injury. I participated in data gathering, data analysis, poster presentations, and was an author on the manuscript for a large-scale research project with MINDSOURCE assessing brain injury prevalence and other psychosocial factors individuals in community corrections. In this lab I assisted PsyD students with the completion of their dissertations, supported other master's students' data gathering, data analysis, and manuscript development.

Current project: The association between childhood traumatic brain injury history and incarceration risk factors.

Research Assistant

Developmental Origins of Mental and Physical Health Lab, University of Denver, Denver, CO
November 2018 — June 2022

PI: Jenna Doom, PhD

Primary Responsibilities: Assisted a doctoral student with thematic analysis for a study of high school students' attitudes and subjective wellbeing during the start of the COVID-19 pandemic. Coordinated with a Counseling Psychology PhD student on data analysis (using SPSS) of the National Survey of Children's Health. Master's capstone: Relationship between adverse childhood experiences and acquired brain injury later in life.

Research Assistant

Neurodegeneration Lab,

November 2018 — July 2022

PI: Dan Linseman, PhD

Primary Responsibilities: Simple tagging of glial cells for a test of concussion effects on mice. Worked with a Biological Sciences PhD student to blood biomarker data (using Vector) and psychological assessment self-report data in persons with a history of brain injury. Master's capstone: Correlations between neurotransmitter metabolites and precursors to psychological and physiological symptoms in persons with a history of brain injury.

Research Assistant

Knoebel Institute for Healthy Aging, Paul Freeman Financial Security Program, University of Denver, Denver, CO
November 2018—August 2023

PI: Eric Chess, JD, MD

Primary Responsibilities: Research assistant and psychological sciences consultant for projects with older adults at risk for financial fraud due to cognitive decline or history of brain injury. Primary project: Assessing adverse childhood experiences and memory performance in persons over the age of 50.

Research Assistant

Down Syndrome Biobank Consortium, University of Colorado, Anschutz Medical Campus, Denver, CO
November 2018—October 2022

PI: Lotta Granholm-Bentley, PhD

Primary Responsibilities: Developed and managed the REDCap database for this international biobank. Communicated with 15 separate international faculty to coordinate the collection of data and sharing of data. Designed, built, and maintained the consortium website.

Research Assistant

Concussion Research Collaborative, University of Denver and University of Colorado, Anschutz Medical Campus, Denver, CO
November 2018—September 2022

PI: Bradely Davidson, PhD

Primary Responsibilities: Updated, re-designed, and managed the REDCap database for this University of Denver and CU-Denver, Anschutz, interdisciplinary collaborative research project. Coordinated 4-5 master's and PhD students in data collection practices, through four cycles of data collection from high school athletes and college athletes whom had a concussion during that season of play. Served as a primary point of contact for the collaboration between the University of Denver Co-PI's and the University of Colorado, Anschutz Co-PI's.

Colorado OUD/SUD Training (COST) Program Coordinator

University of Denver, Denver, CO

November 2019 — February 2023

Co-PIs: Kim Gorgens, PhD, ABPP & Laura Meyer, PhD

Primary Responsibilities: Assisted the Principal Investigator and Co-PI with all activities for a federal grant awarded through the Health Resources and Services Administration. Assisted with cohort selection; coordinated with the Graduate School of Professional Psychology (GSPP) Field Placement Director, GSPP administrators, and COST external partner sites to ensure student training met competency requirements and flowed seamlessly. Coordinated GSPP HRSA COST Team meetings, and PI and Co-PI meetings with external training partner sites. Coordinated with GSPP Grant Administrator and central DU grant office on financial duties, including payroll, invoicing, and purchasing. Recruited, set up, and assisted with APA-accredited continuing education training and workshops. Assisted with data collection and data analysis, evaluation activities, follow-up with graduates to collect HRSA-required and GSPP information, reporting activities, helped prepare publications and presentations, and worked with cohort students to ensure all clinical hours, paperwork, and other requirements were completed and recorded. Member of the Dean's Diversity Committee, LGBTQIA+ Sub Committee committed to amplifying the voices of diverse students, staff, faculty, and community partners. Member of the Research Committee which focused on the doctoral student's awareness and use of research and statistics, and dissertation to publication process.

Research Assistant

Colorado Evaluation and Action Lab, University of Denver, Denver October 2019 - June 2020

PI: Kim Gorgens, PhD, ABPP

Primary Responsibilities: Assisted with a US Department of Health and Human Services Grant-funded collaborative project reviewing an intervention for criminal justice-involved individuals who reported histories of traumatic brain injuries. Data collection and manuscript development. Culminated in a publication and stakeholder-led Senate Bill 138 to enact a state-level committee of stakeholders to improve brain injury support in the criminal legal system of Colorado with increasing funding.

TEACHING EXPERIENCE

Adjunct Faculty

University of Denver, Denver, CO

January 2020- June 2022

Master's Level Courses: Research Methods (Winter 2020, Winter 2021)

- o Developed department-wide core competencies for research methods and statistics courses taught at the Graduate School of Professional Psychology (in tandem with a postdoctoral student).
- o Redesigned this research methods course to better serve the applied needs of this student population.
- o Mentored students conducting small-scale research projects using existing data sets to help them prepare for doctoral applications and research.

Undergraduate Courses: Foundations in Kinesiology and Sport Studies (Spring 2022)

- o This course is part of a new Kinesiology and Sport Science minor at the University of Denver. Responsibilities included designing and development of this first-time offered course in partnership with the program director.

- o Aimed to expose students to the wide variety of careers in sports sciences and the history and cultural implications of sports sciences. Introductory course to engage student interest in the potential development of an undergraduate major in Kinesiology and Sport Studies.

Affiliate Instructor

Regis University, Denver, CO

January 2021- June 2022

Undergraduate Courses: Lifespan Development (Spring 2022)

- o This upper-division course is primarily for pre-medical students in the Psychology and Neuroscience department.
- o Course design and development focus on perinatal through death developmental changes in psychology and neuroscience. The curriculum includes the impacts of biology, psychology, and environmental factors on psychology, neuroanatomy, and neurodegeneration through a culturally aware lens.
